

## **SOCIAL DATA SCIENCE PROJECT DESCRIPTION - GROUP 9**

RASMUS GARS, LUKAS HIDAN, HJÖRTUR HJARTAR, MADS WULF

**Description:** We want to examine prices of flights to France during the European Championship in men's football.

**Hypotheses:**

- There is a significant jump in flight prices in countries that have qualified to Euro 16 relative to unqualified countries.
- The above mentioned effect is smaller for countries that border France.

**Data:** We scrape a ticket providers API.
